EDUCATION

Galgotias College of Engineering and Technology Nov 2021 - June 2025
Bachelor of Technology in Computer Science And Engineering
S R Public School, PAT BR April 2019 - Sept 2020
Intermediate (PCM)

SKILLS

HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Redux, Bootstrap, Tailwind CSS, Git, Vite , Node.js , Express.js, Postman, MongoDB, Mongoose, RESTful APIs, JSP, Servlet, JDBC, Firebase, SQL, C/C++.

EXPERIENCE

IBM SkillsBuild Summer Internship Program June 2024 - Aug 2024
Had completed this internship by CSRBOX, in which taken part in a group project, made a nice looking frontend using reactJs and fully working backend using ExpressJs.

Bharat Interns (Web Development Virtual Internship) Aug 2023 - Sep 2023
Had crafted descent websites while this Internship Program at Bharat Intern (MERN stack).

PROJECTS

BurnedSales MERN Based E-commerce platform, includes a Node.js and Express backend with RESTful API endpoints for user authentication (registration and login with JWT), product management (CRUD operations for admins), and shopping cart functionality.The React frontend interacts with these APIs, featuring components for authentication forms, product listings, product details, and a shopping cart, managed with Redux for state management and React Router for navigation.(Repository)

BurnedFolio Crafted my own PortFolio using React.This portfolio, built with React, showcases my skills and projects using key React concepts like components, props, state management, and hooks. It features a home, a bio, contact and a projects section with descriptions and links, and a contact form.(Try it here) (Repository)

Confetti Calculator Full Working React-based clone of the macOS Scientific Calculator using React.Includes all basic arithmetic operations, advanced functions, logarithms, exponents, & special functions. Explosion occurs if calculation between 5 and 6 is being performed.(Try it here)

ChaskaEats Have built the dynamic Restaurant website.This contains a total of 14+ different beautiful pages. Also have added dynamic features like login , registration and add to cart facility for customers. Have also added the database file in this. Have Made this project while exploring JSP, Servlet, JDBC.(Repository)

Kashmir Kaksh Built an online platform using HTML, CSS, JAVASCRIPT for vendors of kashmir to sell their products locally & promote kashmiri culture and heritage(Try it here)

Advanced TIC-TAC-TOE Build a project using Python Programming language which has multiple modes (CPU vs Player Mode & Player Vs Player Mode) to play with. (Repository)
